Bleed Area
Anything here will be trimmed, but remember to extend any background colour or images into this 3mm bleed area.

Trim Area
Your job will be cut on the solid black line, any images or text placed past this area will be trimmed off.

Safe Area
Make sure your text is not too close to the edge and well inside the white area. Remember to use high resolution images (300dpi) for the best results.

Save your design as a high resolution PDF with 3mm bleed.
